

# Photo Booth

A photo booth is a fun way to engage your guests and make them feel inclusive. Not only do they get a free photo of themselves to take home, they take a little piece of your event and memories for a lifetime.

There are different types of photo booths to choose from:

1. Lounge Style - Can easily accommodate groups

2. Open Air Style - It captures the ambiance of the venue. It is less obtrusive and can handle the largest groups.

3. Traditional Style - It can accommodate 2-3 people.

Each set up comes with an attendant and props. There are two printouts per person, which they can keep or, (as an option) one strip can be pasted into a scrap book and the guest can write a message to you. You can purchase your own scrap book or we can provide you with one as an option.

With the package you will be supplied a copy of the strips on a DVD or thumb drive.

The photo strip can be customized with your name and message.

The burgundy drape is our standard background for the lounge style. You can make your own background or we can make an optional background for you
